Lee Business School
BSBA Degree, Entrepreneurship 2016-2017

Entrepreneurship is many things to many people. A leading scholar in the field, William Bygrave, defines it as "...initiative, imagination, flexibility, creativity, and a willingness to think conceptually, and the capacity to see change as an opportunity." As such, entrepreneurship can be considered a unique perspective of general management. It is fundamentally integrative and interdisciplinary in nature. While housed in the Department of Management, Entrepreneurship and Technology, this major is cross-functional in its scope, emphasizing entrepreneurial management, marketing and finance.

The entrepreneurship major prepares students to view the business world through entrepreneurial lenses. Students completing this major should have the skills to recognize opportunity, develop a business concept, determine its feasibility and write a comprehensive business plan. Besides preparing students to begin their own businesses, the major enables students to become productive employees in newer or innovative firms where an emphasis is placed on opportunity identification, risk-taking, making things happen and/or doing more with less.

Suggested Academic Plan

This is a suggested academic plan. Students may make adjustments and consult the current Undergraduate Catalog for course prerequisites. Student should also confirm with departments for semester course offerings.

The difference is the number of general elective credits needed.

◆◆ Select from 300- or 400-level business courses (ACC, BLW, ECON, FIN, IB, IS, MGT [excluding MGT 305], MKT, RE, SCM or BUS 481.)
