

Graduate on time.

Save money.

Earn sooner.

# 15<sup>to</sup> FINISH™

If you want to earn your degree on time, you need to take 15 credits a semester.

## WHY?

### You increase your chances of graduating

The more credits you complete each semester, the fewer opportunities you give life to sidetrack your studies.

### You increase your options

The sooner you finish your studies, the faster you can get started with your career and life outside of school. Once you have your bachelor's degree, you can travel, volunteer, or even get a head start on an advanced degree.

### You increase your income

In Nevada, a person with a bachelor's degree earns \$18,000 more per year than a person with only a high school diploma. The faster you earn your degree, the sooner you can start your career and start earning more.

## GETTING STARTED

### 1. Meet with your academic advisor at least once a semester

Your advisor will help you decide on the classes you need to take that will work around your schedule while helping you complete your degree requirements.

### 2. Create your four-year plan

Work with your advisor to map out each semester of your degree program. Use the back of this page to plan each semester of your four-year degree.

### 3. Enroll in 15 credits each fall and spring semester

If you cannot take 15 or more credits in the fall or spring semester, take 12 credits each in fall and spring, and 6 credits during the summer to stay on track.

### 4. Use MyUNLV to help you stay on track

Stay up-to-date on course offerings and events at UNLV by checking my.unlv.edu every week. This is how you will know about important deadlines, academic events and registration information.
